## Sales policies and miscellaneous

### Sales

#### No returns

Tockay is in a **warehouse**, therefore retailing is **exclusively made upon appointments**. Call 514-691-4065, leave us a message and we will return your call promptly.

The required price is the one provided on our website at the time of the sale. Prices are given in Canadian dollars before taxes.

Products are shipped via Canada Post or Expedus every Fridays. Shipping costs are added to your order invoice. They are defined according to the shipping location and the type of shipping you choose. Delivery time is indicative. Thus delays cannot allow any compensation, penalty for late or withdrawal of the order.

### Products yield

The yield calculation is based on one single coat. One to three coats are necessary according to both the type of surface and the desired texture. Our yield calculation is also defined on the application on clean gypsum (fibrous plaster boards). The quantity of product may change in accordance with the chosen technical application and whether the surface is porous or absorbent. The exact quantity of product has to be determined on your location.

### Training workshop

Our certified trainers teach application techniques for Kreidezeit products from beginners to experts. More information on [www.tockay.com](http://www.tockay.com).
